Hongkong Tides.

State of Maine 2 k Curtis Amer. sh 1447 May 12 Standard Oil Co.

The Tide Table given below has beene compiled by the Nautical Almanas Office in London from the result of the analysi of observations taken by means of an aucomatic tide recording machine in the Water Police Basin at Tsım Sha Tsui during the years 1887-8-9.

The zero of the table is Low Water Ordinary Spring Tides, which has been found to be 2 feet below mean sea level. To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 5 ft. 7 in., and on the gauge at Lamont Dock. Aberdeen, add 12 ft. 8 in. the height given in the table.

AMERICAN TROOPS TO OCCUPY MANILA

From a private telegram received by a leading firm in Hangkoug, we learn that the war may now be considered virtually at an end. The peace protocol has been signed. The American troops are to occupy Manila and a Hispano-American Commission is to be appointed to decide upon the future government of the Philippines.

OFFICIAL INTIMATION. On enquiry at the U. S. Consulate-General, we learn that Mr Ronnsayelle Wildman received official intimation this morning from the State, Navy and War Departments that the peace protocol had been signed, and later on received Prosident McKinley's proclamation declaring an armistice. The instructions sent to Admiral Dewey and General Morritt are to occupy Manila Bay, harbour and city, to cease hostilities, and raise the blockade.

SENDING THE NEWS TO MANILA. Immediately on receipt of the proclamation, Mr Wildman promptly set about for a means to convoy the news to Manila, and he has arranged for the Australian liner Australian to call in at Manila on her voyage to Australia. This vessel left to day at five o'clock, and carries the mails which have accumulated at the Consulate since the departure of the last steamer.

THE NEED FOR A SURVEY OF THE - UPPER YANGTSE

A HINDRANCE TO TRADE.

Chungking, July 28. We have had an unusually large number wrecks on the Upper Yangtso during the past few months, resulting in danger to life and loss of property to such an extent that nearly every foreigner in West China

has suffered to some extent. In view of this a resolution was passed at a meeting of foreigners hold in this city a forthight ago that a vepresentation should be made to the British Government setting forth the argent need of a thorough survey of the Upper Yangtze being made as far at least as the open port of Chungking and suggesting that some of the naval officers on the China Station might with great advantage to the Chine-e as well as foreign residents be commissioned to made it.

A.memorial has therefore been drawn up and is being signed by both British and American citizens residents in the three western provinces of Szechuen. Yunnam and Kueichow. - Guzette.

MONADNOCK LEAVES HONOLULU. The Monadnock and Nero left Hono. lulu ou the morning of the 13th July for Manila. As the Monadnuck swang her nose into the stream and strams ed majustically out to sea, cheer after cheer she passed the Mohican the latter signalled Farewell,' one of the colours used being the Spanish Sag. The collier Nero left her moorings some time before and suchored off the harbor to await the coming of the Monadauck, when they both steamed away together. They expect to reach Manila about August loth.

THE HONGKONG DISPERSARY Bitanting A.D. 1841 Southern Assist 1889

The China Itail. HONGKONG, BATURDAY, AUGUST 13, 1808. Two months ago the announcement was made that the Convention had been signed at Peking granting the extension of the boundaries of the Colony. No official intimation has yet been made, either af home or in the Colony, of the terms of the Convention, and with implicit confidence in Sir Claude Macdonald, our Minister at Peking, we have calmly awaited the time when the Government would take the public into their confidence. By reason of the excellent service rendered by the ablcorrespondent of the Times at Peking, the people at home were even better informed than the colonists of Hongkong of the nature of the concession, and much wa made of the two hundred miles of ter ritory to be leased. It was regarded some quarters as a brilliant diplomati achievement, a mighty slap in the face to Russia, who had sneeringly regarded our powerful naval demonstration in the Gulf el Pechili. The Government were evidently charmed with the flattery bestowed, and fearful lest the illusion should be dispelled no particulars were vouchsafed beyond the bare fact of a Convention having been signed for a lease of the two hundred miles. Long before the Convention was signed we were apprehensive that the people at hom should view the lease of the Kowloon terri tory in this exaggerated light. The extension of the boundaries of the colony is a longdeferred scheme, and was initiated bufore the policy of grab was begun. Mr Chater, in his memorial suggesting the acquisition of the Kowloon heights opposite Hongkong stated it was absolutely essential for the security of the Colony that they should be in our possession. When the Island of Hon kong was acquired, the possession of the territory opposite was not desirable, but with the increase in the effective range of modern guns the necessity had grown with the times. Therefore to consider the lesse of the adjoining territory as only a move in the game of grab, a checkmate to Russia, is absolutely absurd. The game of grab was not announced at that stage, and John Bull was simply making himself comfortable for the protection of commercial enterprise, or as it has been renamed 241, 12 and 305 | Voluntaries, March the open door. The secret of the Conin G. Smart Andanto In A flet, vention remained safely guarded for a month, when the Colony received a rude shock on reading in the Times the announcement that Kowloon city was to remain under Chinese jurisdiction. We had remained perfectly satisfied up till then that the Government would see the extension most comfortably made, and Reuter had not

even by the advanced China party, and with the Covernment all went mortily as a marriage ball. This had blot somewhat shook the confidence with which to regarded our Minister at Paking, but still we went the hoping that official intimation of the terms of the Convention would show that a mistake had prept in somewhere The direular letter to Government officials from the Secretary of State regarding communications to the prose, or vise special Instruction from the Home Authorities, is responsible for the reticence maintained. and the Government officials are to be complimented on the success with which the socret has been retained. But the prolonged silence on Chinese affairs diplomatic had aroused some suspicions in the minds of the China Party at home, and Hon. G N. Curzon, somewhat troubled in mind at the repeated demands for more light, com plained that it was absolutely impossible to bers were continually to harass the Governkong having lost patience at being kept so long in the dark have also made vigorous inwith distangur in the Colony, have certain-

which she has cleared on her entry into a Customs port on another voyage, she may be subjected to much inconvenience. The greatest enormity, however, is the facilities afforded for the Customs cruisers to huntdown junks on leaving the harbour, and there have been frequent instances where the neutrality of our territorial waters has been violated. The consequence has been disastrous to the junk trade, the chief distributive agency of our commerce, which since the establishment of the Chinese Customs in our midst shows a pre ruta decrease to the increase in European shipping. The Customs now not only claim to have their system of espionage recognised by the establishment of a Chinese trade commissioner in the Colony, but they demand in this free port of Hongkong facilities to scarch vessels. These presumptuous demands cannot for one moment be entertained. A perfect analogy of the case may be formed if one could conceive of Britain having a Custom House established in an alien country and customs officials boarding vessels while they are loading to search for contraband. Then when a yessel had left the port sending an armed cruiser to overtake her, and tow her back to port, or telegraphing to the port of destination full details of her cargo. The position is ton ridiculously absurd, and Great Britain should take the present opportunity of felieving the great distributing mart of the vexations restrictions imposed upon the distributive medium by clearing out the whole organisation of the Chinese Customs to a line well without the boundaries of the Colony. It is time that the Colonists were up and doing, time that means should be taken to forward a vigorous protest to the Secretary of State, and with the assistance of the China Party in the House it is to be hoped that this agency which has been tending to hamper the legitimate trade of the Colony may now be driven without the bounds. We quite recognise the provisions of the Chefoo Convention, and maintain our Government has more than carried them out. But the assumption now made that they can do as they like, must have come from an enemy to the interests of Great
